

PREVENTIVE HEALTH PROGRAM

Grace Park Animal Hospital offers Preventive Health Programs that will help you and your veterinarian provide the essential care that your pet needs at every stage of his life. The Preventive Health Program (PHP) is not pet insurance, but rather a program that allows you to spread the cost of recommended wellness services out over the course of a year. The plans also include unlimited exams during regular appointment hours, so you can always feel comfortable bringing your pet in if you have a concern. Contact us today to learn more about our Preventive Health Programs.

What's included in the plan?

Canine Plans - Unlimited Exams During Regular Doctor Appointment Hours!
